DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group III, claims 26-28 in the reply filed on April 16, 2008 is acknowledged.
2. Claims 1-25 and 30-44 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected groups, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on April 16, 2008.

Drawings

3. Color photographs and color drawings are not accepted unless a petition filed under 37 CFR 1.84(a)(2) is granted. Any such petition must be accompanied by the appropriate fee set forth in 37 CFR 1.17(h), three sets of color drawings or color photographs, as appropriate, and, unless already present, an amendment to include the following language as the first paragraph of the brief description of the drawings section of the specification:

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

Color photographs will be accepted if the conditions for accepting color drawings and black and white photographs have been satisfied. See 37 CFR 1.84(b)(2).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the

Art Unit: 3732

invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 26-28 and 45-46 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sachdeva et al. 6,315,553 (Sachdeva) in view of Bergersen 5,882,192.
6. Re claim 26, Sachdeva teaches a method of providing a custom orthodontic appliance for treatment of a patient, the method comprising receiving information from an orthodontic practitioner for providing a custom orthodontic appliance for a patient in response to the information from the orthodontic practitioner (col. 10, ll. 45-52), determining parameters for the configuration of a custom orthodontic appliance for the patient and providing to the orthodontic practitioner an orthodontic appliance design for the patient having a configuration that includes the determined parameters (col. 4, ll. 18-39).
7. Sachdeva does not teach the method comprising maintaining a database accessible by computer and containing data related to each of a plurality of practitioners, storing in the database, information identifying the practitioners and information relating to treatment plan options associated with the respective practitioners .
8. Bergersen teaches the method comprising maintaining a database accessible by computer and containing data related to each of a plurality of practitioners, storing in the database, information identifying the practitioners and information relating to treatment plan options associated with the respective practitioners (col. 28, ll. 1-4).

9. It would have been obvious to one having ordinary skill in the art at the time of the invention to modify Sachdeva in view of Bergersen in order to provide the patient with the treatment options for their condition.

10. Re claim 27, Sachdeva teaches the method further comprising receiving information from the orthodontic practitioner of a treatment plan option for treatment of the patient and determining at least one of the parameter based at least in part on the information of the treatment plan option received from the orthodontic practitioner (col. 15, ll. 34-37).

11. Re claim 28, Sachdeva teaches the method further comprising receiving information from the orthodontic practitioner of a treatment plan option for treatment of the patient and determining parameter addressed by the information of the treatment plan option received from the orthodontic practitioner in accordance with that information and determining parameters not so addressed in accordance with information stored in the database (col. 10, ll. 26-24).

12. Re claim 45, Sachdeva teaches the method further comprising providing to the orthodontic practitioner the orthodontic appliance manufactured in accordance with the orthodontic appliance design (col. 4, ll. 31-39).

13. Re claim 46, Sachdeva teaches a method of providing a custom orthodontic appliance for treatment of a patient, the method comprising in response to information from an orthodontic practitioner (col. 10, ll. 27-34), providing an orthodontic appliance for an individual patient having a configuration that includes appliance parameters base

Art Unit: 3732

at least in part on predetermined treatment plan options associated with the practitioner (col. 10, ll. 45-52).

14. Sachdeva does not teach the treatment retrieved from a previously created and maintained database containing database containing data associating a plurality of orthodontic practitioners with treatment plan options respectably preferred by each practitioner.

15. Bergersen teaches the treatment retrieved from a previously created and maintained database containing database containing data associating a plurality of orthodontic practitioners with treatment plan options respectably preferred by each practitioner (col. 28, ll. 1-4).

16. It would have been obvious to one having ordinary skill in the art at the time of the invention to modify Sachdeva in view of Bergersen in order to provide the patient with the treatment options for their condition.
